## HOW TO HAVE A GOOD COLOR

Beauty—real beauty—is more than skin deep. No cosmetic in the world can give the wholesome color, the bright eyes, the clear transparent skin that is the natural result of pure blood, proper diet and hygienic habits of daily life.

It sounds easy and it is easy for a woman to have the beauty which health alone can give. A safe and efficient tonic if the blood is weak, thin or impure (Dr. Williams' Pink Pills for Pale People are especially recommended), the avoidance of foods which will cause eruptions, and regular bathing of the skin. That is all and it is the only way. Most women will be interested in the following statement:

Mrs. P. D. Sowers, of No. 308 East 2nd street, Muscatine, Iowa, says:

"I am glad of the opportunity to praise Dr. Williams' Pink Pills for Pale People as they have saved my life. When I was eighteen years old I became pale and weak. I was drowsy and could not hold my head up. I was dizzy and tired. I didn't care for anything and talked only when spoken to. My heart was very weak and whenever I exerted any strength I became sick at the stomach. I had a fluttering of the heart and would get so dizzy that I could not stand. I was pale and became so weak that I had to leave school. I grew worse all of the time and although the doctors changed my medicine every time they came, they were unable to help me. I had been under the doctors' care for eleven long months and they told my parents that they feared I was going into consumption. It was at this time, a friend persuaded me to give up the doctors' medicine and try Dr. Williams' Pink Pills.

"I can hardly describe the great change for the better that soon came over me. My appetite picked up and my eyes became so much brighter. I became healthier in every way, had a good, clear color and soon felt entirely well. There never were happier people than we. I am always watching for a chance to recommend Dr. Williams' Pink Pills.

"Write to the Dr. Williams Medicine Co., Box 176, Schenectady, N. Y., for a free booklet, 'Plain Talks to Women.' It should be read by every woman and growing girl. A free sample of the new laxative 'Pinkettes' will also be sent you. Should you be unable to obtain Dr. Williams' Pink Pills for Pale People in your locality they will be sent postpaid, on receipt of price, fifty cents per box; six boxes for \$2.50.

The accumulation of Austrian troops on the Serbian frontier and the provocative language of the Vienna newspapers have led to renewed excitement and warlike feelings in Serbia. The newspaper Pravda, voicing the prevailing irritation, says:

If Austria wishes war with Serbia it will come. It will be the most bitter fight in history. Every Serbian man and woman, young and old alike, will take part in it, and Austria will have to exterminate the whole Serbian nation before conquering it."

President Taft today tentatively selected December 19 as the date for starting for Panama. His intention in visit the isthmus before going out of office was influenced, partly at least, by President-elect Wilson's decision not to do so.

## ROOT'S PLEA FOR NATIONAL HONOR

At the 144th annual banquet of the New York chamber of commerce, Senator Root referred to the period of rest succeeding the elections as a time for national introspection. Vast masses in the country misunderstood the spirit of self-government. There were thousands of people outside of the industrial classes who thought the body he addressed a den of thieves. Speaking of the Panama Canal act Senator Root said:

"We have now approached a question which will test the willingness of the American people to be true to the ideals of self-government, showing that a democracy can be honorable and just. Under the agreement made Great Britain retires from her position and signed over to the United States all the rights she had under the partnership agreement. It was specified that the ships of all nations were to have the same treatment. Then Panama made to the United States a grant of the use and occupation of a strip of territory across the isthmus to be used for the construction of a canal in accordance with the terms and stipulations in this treaty with Great Britain. Our Congresses passed a law which gives free transit to American ships engaged in coast-wise trade while passing between our Atlantic coast and our Pacific coast, while tolls are to be imposed upon British ships passing between British ports on the Atlantic and British ports on the Pacific, and upon all other foreign ships.

"Now, Great Britain claims that that is a violation of the treaty which we made with her and in accordance with which by express provisions contained in our grant from Panama we were to build and open the canal. Congress takes a different view of the construction of the treaty, and it has passed this law which Great Britain says violates it, and the question is now to come. What is to be done about it? We have a treaty with Great Britain under which we have agreed that all questions arising upon the interpretation of treaties shall be submitted to arbitration, and it seems hardly conceivable, yet there are men who say that we will never arbitrate the question of the construction of that treaty, and I say to you that if we refuse to arbitrate it we will be in the position of the merchant who is known to all the world to be false to his promises. (Applause and cheers.)

"With our nearly four thousand million of foreign trade we will stand in the world of commerce as a merchant false to his word. Among all the people on this earth who hope for better days of righteousness and peace in the future we will stand in the light of our multitude of declarations for arbitration and peace discredited. Dishonored hypocrites, with the fair name of America blackened, with the self-respect of Americans gone; with the influence of America for advice along the pathway of progress and civilization annulled, dishonored and disgraced. That question stands among us and no true American can fail to use his voice and his influence upon that question for his country's honor. (Applause.)

"If we are lovers of liberty and justice, if we are willing to do as the nation what we feel bound to do as individuals in our communities then all the questions we have been discussing will be solved right, and for countless generations to come Americans will still be brothers as they were in the days of old, leading the world toward happier lives and nobler manhood, toward the realization of the dreams of philosophers and the prophets for a better and nobler world."

Commenting on these remarks of Senator Root, the New York Journal of Commerce says:

"This is strong language, but it is memorable and will not be forgotten as coming from the lips of one of the ablest of American Senators. There is scarcely a doubt that if the question should be submitted to impartial arbitration, it would be decided against our Government. It is probably a realization of that fact that has induced the extraordinary attitude of those who say there should be a refusal to submit it. It indicates a consciousness of wrong in their position. To have it submitted and have an adverse decision would produce a deplorable effect upon public feeling, however just the decision might be. The only escape from either dishonor or humiliation is the repeal by Congress of the provision in the Panama Canal act which creates the dilemma. That ought to be done at the earliest opportunity. It is demanded, not only for the sake of American honor, but for the sake of the material interests of the United States in a long future. To adhere to an act of perfidy will not pay. Honesty is the best policy in the dealings of nations as of men."

BEWARE OF COLDS. Children are much more likely to contract the contagious diseases when they have colds. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds.
